

welfareplus[®] Rodent Enrichment Solutions

GNAWING ENRICHMENT PRODUCT

Aspen Balls

Premium, all natural solution to promote natural behaviors for various rodents and rabbits.

PRODUCT DESCRIPTION

Aspen Ball enrichment is created from fresh-cut, untreated Aspen wood, designed to fulfill rodents' innate needs for gnawing and climbing. Aspen Balls help reduce unwanted aggressive behaviors by encouraging natural instincts and activity.

PRODUCT FEATURES AND BENEFITS

- **Premium Grade Aspen Wood:** Made from high-quality, untreated Aspen, ensuring a safe and natural enrichment option for your animals.
- **Highly Durable:** Constructed to withstand natural chewing and gnawing behaviors, providing long-lasting enrichment.
- **Promotes Natural Behaviors:** Long-lasting enrichment and helps to maintain oral health. Additionally promotes climbing and physical activity, vital for rodent well-being.
- **Minimizes Animal Stress Levels:** By providing an outlet for natural instincts, Aspen Balls aid in reducing stress and associated aggressive behaviors.
- **Suitable for Re-use Following Cage Change:** Aspen Balls can be sanitized and reused, contributing to cost-effectiveness and sustainability in your facility.
- **Suitable for mice, rats, hamsters, cotton rats and rabbits.**
