

welfareplus[®] Rodent Enrichment Solutions

NESTING ENRICHMENT PRODUCT

Paper Wool

Delivers both comfort and enrichment for your rodents.

PRODUCT DESCRIPTION

Paper Wool delivers a superior combination of warmth, comfort, and cleanliness, providing an excellent source for burrowing and nesting material for your curious rodents. Paper Wool's long, pliable strands provide excellent opportunities for burrowing and nesting, promoting natural behaviors and reducing stress and its unwanted behavior.

PRODUCT FEATURES AND BENEFITS

- **Optimal Comfort & Warmth:** Offers a high level of comfort and warmth, by trapping warm air, aiding in thermoregulation.
- **Superb Cleanliness & Absorbency:** Naturally absorbent, Paper Wool provides a clean nesting solution, effectively wicking away moisture, contributing to a hygienic cage environment.
- **Enhanced Cage Environment:** Enriches the cage by promoting natural foraging, burrowing and nesting behaviors, fostering a more stimulating habitat.
- **Durable & Shape-Retaining:** Long stranded, crafted to retain its shape, make it a premium fluffy enrichment materials ensuring long-lasting comfort.
- **Universal Compatibility:** Ideal for all cage types, making it a versatile and convenient choice for any research or animal care facility.
- **White color allows for easy detection:** The white color allows for the detection of pups, post-surgical issues, or other treatments, making it simple to spot any changes or problems.
- **Suitable for mice, rats, cotton rats and hamsters.**
