

welfareplus[®] Rodent Enrichment Solutions

PLAY ENRICHMENT PRODUCT Play Tunnel

High-quality, long-lasting and bio-secure enrichment for rodents and rabbits.

PRODUCT DESCRIPTION

Our cardboard Play Tunnels are designed and available in a range of lengths, widths, and thicknesses, making them suitable for mice, rats, rabbits and other rodents. Play Tunnels provide opportunities to promote natural behavior such as hiding, climbing, gnawing, or simply offering a secluded refuge from cage mates. Teklad Play Tunnel can be a useful tool for refining animal handling procedures.

PRODUCT FEATURES AND BENEFITS

- **Long-Lasting & High-Quality:** Made from durable, high-grade cardboard for extended use.
- **Bio-Secure:** Manufactured with animal welfare in mind, ensuring a safe and clean environment.
- **Customizable Sizes:** Available in a wide range of lengths, widths, and thicknesses to suit different species and research needs.
- **Promotes Natural Behaviors:** Provides a safe space for animals to seek refuge, stimulates playful activity, and satisfies natural gnawing instincts, leading to improved welfare and more robust research outcomes.
- **Enhances Handling Refinement:** Can be used as a valuable tool to facilitate calmer and more efficient animal handling.
- **Food-Grade Adhesive:** Constructed with animal-safe, food-grade adhesive for ultimate safety.
- **Suitable for mice, rats, hamsters, cotton rats, ferrets, and rabbits.**
