

iCare Program

Continuity of Care

North America

Inotiv's iCare Program focuses on creating industry awareness and continuing the highest-quality nutrition, bedding, and meaningful environment enrichment for a wide range of laboratory animal species. The iCare Program supports the same continuity of care for the animal models we breed, but it also offers our customers a sole source for the products.

MODEL CATEGORIES:

Species:
Mouse

Categories:
Inbred, outbred,
and hybrid

Sub-category:
Immunocompetent

Geography:
North America

DIET:

The ideal lab animal diet is the **2018 Teklad Global 18% Protein Rodent Diet (Irradiated or Autoclavable)**.

BEDDING:

The preferred bedding products are **Teklad Diamond Soft** or **Ultra Soft Bedding**.

ENRICHMENT:

The range of environmental enrichment products that are provided in a rotation include Teklad Diamond Twists, as well as Sizzle Nest, Shelters, Cocoons, and Paper Wool from our **welfareplus+®** line of enrichment products.

Please contact our Customer Service Department at TekladOrders@inotiv.com to inquire about sampling or purchasing any of the lab animal diet, bedding, or enrichment products.
