ABOUT

Dr. Julie White joined Inotiv in 2021 as a veterinary anatomic pathologist, through the acquisition of Bolder BioPATH. She primarily provides pathology support to investigators working with rodent models of IBD and GI neoplasia, as well as other immune-mediated and inflammatory diseases. From 2022-2024, she also served as Associate Professor on the faculty of St. Matthew's University in Grand Cayman, where she taught pathology and clinical pathology to veterinary students.

Dr. White joined Inotiv after serving for over 10 years as a pathologist, mentor, and assistant professor at the Tri Institutional Laboratory of Comparative Pathology (Memorial Sloan Kettering Cancer Center, Weill Cornell Medical College, and The Rockefeller University) in New York City. She also served as an adjunct faculty member at the University of Connecticut during this time.

Dr. White earned her DVM from Louisiana State University. She began her pathology residency in 2000 at Angell Memorial Animal Hospital and Tufts Veterinary School. She has been a diplomate of the American College of Veterinary Pathologists since 2003.

AREAS OF EXPERTISE

- Rodent models of disease in GI (IBD, neoplasia)
- Lung (allergic, injury, fibrosis)
- Pancreas (pancreatitis)
- Skin (psoriasis, DTH, fibrosis)
- Liver (NASH, fibrosis)
- Kidney (lupus)

MY JAM

- Trail running
- Hiking
- Spending time with my Parrot, Patrick
