ABOUT

Dr. Marlene Orandle joined Inotiv as a pathologist in 2023. At Inotiv, Dr. Orandle serves as a quality assessment/pathology working group pathologist and performs pathology data reviews and audits of pathology specimens in support of Division of Translational Toxicology (DTT) studies. Dr. Orandle also participates in the DTT Global Toxicologic Pathology Training Program authoring PowerPoint modules for trainees in veterinary pathology.

Prior to joining Inotiv, she served as a Research Veterinary Medical Officer/Pathologist at the National Institute for Occupational Safety and Health (NIOSH), where she provided collaborative research support for rodent toxicology studies involving exposure to workplace hazards.

Dr. Orandle received her DVM from Iowa State University College of Veterinary Medicine and her PhD in Pathobiological Sciences from University of Florida College of Veterinary Medicine. She is an author or co-author on over 50 publications and pursues an active interest in respiratory system pathology.
